Mounir Bella

Full Stack JavaScript Developer · React / Node.js · Applied AI

Bergara, Gipuzkoa, Spain | mounirbella32@gmail.com | +34 631 10 69 94 | github.com/mounirb-dev | portfolio-ten-tawny-98.vercel.app

PROFILE

Full stack developer with 2 years of hands-on experience building web applications with React, Next.js and Node.js. I build interfaces and backend services that connect to AI tools and external APIs, and I work daily with Claude, OpenAI Codex, Cursor, Ollama, Groq and Model Context Protocol (MCP). I built a custom CRM with n8n for a training center, with bookings that automatically create orders, and I run my own self-managed servers. Self-taught, with professional certificates from Lanbide in web and software development.

EXPERIENCE

Full Stack Developer - Ceaformacion (Vitoria-Gasteiz) | Sep 2026

- Built a custom CRM with n8n that replaced the previous CRM, to nurture and follow up leads coming from WhatsApp.
- From the CRM, the team managed the time slots for student tests, and each booking created an order automatically, which organised the process.
- Reduced the hours the team spent on these tasks.
- Set up own servers using old computers and deployed self-managed services such as InsForge, n8n and DocuSeal.

EDUCATION

- Certificate of Professionalism: Web Technologies Application Development - Lanbide (Basque Employment Service)
- Certificate of Professionalism: Web Page Creation and Publishing - Lanbide (Basque Employment Service)

SKILLS

- **Frontend:** React, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, shadcn/ui, Zustand
- **Backend & Databases:** Node.js, Bun, Supabase (Postgres), InsForge
- **AI & Automation:** Claude (Anthropic), OpenAI Codex, Cursor, Ollama, Groq, Model Context Protocol (MCP), n8n, DocuSeal
- **DevOps & Infrastructure:** Docker, Git, GitHub, AWS, SSH, Ubuntu Server, Oracle Cloud (VPS), Dokploy
- **Security & Payments:** Snyk (dependency and vulnerability scanning), Stripe, Dodo Payments

PROJECTS

- **Excaliclaw** (excaliclaw.com): collaborative digital whiteboard built natively for AI agents.
- **Personal portfolio - Next.js** (portfolio-ten-tawny-98.vercel.app): Next.js and Tailwind app deployed on Vercel, with canvas, drag & drop, 3D CSS transforms and dynamic QR code generation.
- **Open source & practice** (github.com/mounirb-dev): AI API integrations, n8n automations and self-hosted deployments (Dokploy, VPS).
