PROFILE

Web developer with 2 years of practical experience building websites and web apps with React, Next.js, Node.js and Tailwind CSS. Comfortable with HTML5, CSS3, JavaScript, REST APIs, Git and cloud tools (AWS, Docker). I also build integrations and automations with n8n and use AI tools (Claude, OpenAI Codex, Cursor) to ship faster. I like fast-moving teams where delivery speed matters.

SKILLS

- **Frontend:** JavaScript, HTML5, CSS3, React, Next.js, Tailwind CSS, shadcn/ui, Zustand, Figma
- **Backend & APIs:** Node.js, Bun, Supabase, InsForge, integrations with Stripe and Dodo Payments, n8n integrations (WhatsApp)

EXPERIENCE

Full Stack Developer - Ceaformacion (Vitoria-Gasteiz) | Aug 2026 - Oct 2026

- Built a custom CRM with n8n that replaced the previous one and tracked leads coming from WhatsApp.
- Built a booking flow: staff manage time slots and each booking creates an order automatically, which reduced the team's working hours.
- Set up self-managed servers on reused computers and deployed InsForge, n8n and DocuSeal.

PROJECTS

- **Interactive portfolio** (Next.js, Tailwind CSS, Vercel): responsive web app with canvas animation, drag and drop, 3D CSS transforms and dynamic QR codes. portfolio-ten-tawny-98.vercel.app
- **Excaliclaw** (excaliclaw.com): collaborative digital whiteboard built for AI agents.
- **Open source and side projects** (github.com/mounirb-dev): AI API integrations, n8n automations, self-hosted deployments (Dokploy, VPS) and React/Next.js interface components.
