PROFILE

Full stack web developer with 2 years of hands-on experience in JavaScript (React, Next.js, Node.js) and in building AI-powered automation. I use AI development tools (Claude, OpenAI Codex, Cursor, Ollama, Groq, MCP) and I built a custom CRM with n8n that automated lead follow-up and bookings. I own features from development to deployment, including self-hosted servers. Self-taught, backed by professional certificates from Lanbide.

EXPERIENCE

Full Stack Developer - Ceaformacion (Vitoria-Gasteiz) | Sep 2026

- Built a custom CRM with n8n that replaced the previous CRM, to nurture and follow up leads coming from WhatsApp.
- The team managed student test time slots from the CRM, and each booking automatically generated an order, which organized the process.
- Reduced the hours the team spent on these tasks.
- Set up own servers using old computers and deployed self-hosted services such as InsForge, n8n and DocuSeal.

EDUCATION

- Professional Certificate: Web Page Creation and Publishing - Lanbide (Basque Employment Service)
- Professional Certificate: Web Application Development with Web Technologies - Lanbide (Basque Employment Service)
