PROFILE

Web developer with 2 years of hands-on experience building websites and web applications with HTML5, CSS3, JavaScript, Tailwind CSS, React and Next.js. Works with WordPress and Figma, and uses Git/GitHub in daily work. Built a custom CRM with n8n for a training centre and set up self-managed servers. Uses AI tools (Claude, Cursor, OpenAI Codex) in the development workflow. Professional certificates from Lanbide in web page creation and web application development. Portfolio available online.

EXPERIENCE

Full stack developer - Ceaformacion (Vitoria-Gasteiz) | Sep 2026

- Built a custom CRM with n8n that replaced the centre's previous CRM, to follow up leads coming from WhatsApp.
- From the CRM, the team managed the time slots for student tests, and each booking created an order automatically, which organised the process.
- Reduced the hours the centre's team spent on these tasks.
- Set up self-managed servers using old computers and deployed self-hosted services such as InsForge, n8n and DocuSeal.
