CV Mounir Bella

Mounir Bella

Full Stack JavaScript Developer · AI-assisted engineering · Next.js · React · Node.js

Bergara, Gipuzkoa, Spain (remote) | mouunirbella32@gmail.com | +34 631 10 69 94 | github.com/mounirb-dev | portfolio-ten-tawny-98.vercel.app

PROFILE

Full stack web developer with 2 years of practical experience building and shipping software end to end: interface, backend logic, database and deployment. I work every day with AI coding tools (Claude, OpenAI Codex, Cursor, Ollama, Groq, MCP) and I review and debug the code they produce. I have built a custom CRM with n8n for a training center, run my own self-managed servers, and shipped personal products such as Excaliclaw, a collaborative whiteboard for AI agents. I learn new stacks fast and like owning a feature from idea to production.

SKILLS

- **AI-assisted development:** Claude, OpenAI Codex, Cursor, Ollama, Groq, Manus, Model Context Protocol (MCP), n8n workflows
- **Frontend:** JavaScript, React, Next.js, Tailwind CSS, shadcn/ui, Zustand, HTML5, CSS3, Figma
- **Backend & Data:** Node.js, Bun, Supabase (Postgres), InsForge, Stripe and Dodo Payments integrations, WhatsApp integration in n8n
- **DevOps & Infrastructure:** Docker, Git, GitHub, Dokploy, Ubuntu Server, SSH, AWS, Oracle Cloud (VPS), Scaleway, Tailscale, self-managed servers
- **Security:** Snyk (dependency and vulnerability scanning)

PROJECTS

- **Excaliclaw** (excaliclaw.com): collaborative digital whiteboard built for AI agents.
- **Interactive portfolio** (Next.js, Tailwind CSS, Vercel): responsive web app with canvas animation, drag and drop, 3D CSS transforms and dynamic QR code generation. portfolio-ten-tawny-98.vercel.app
- **Custom CRM with n8n** (Ceaformacion, Vitoria-Gasteiz, Aug 2026 - Oct 2026): replaced the previous CRM and tracked leads from WhatsApp. Staff manage time slots and each booking creates an order automatically, which reduced the team’s working hours.
- **Self-managed infrastructure:** servers on reused computers running InsForge, n8n and DocuSeal.
- **Open source and side projects** (github.com/mounirb-dev): AI API integrations, n8n automations, self-hosted deployments (Dokploy, VPS) and React/Next.js interface components.

EDUCATION

- Professional Certificate: Web Application Development with Web Technologies - Lanbide (Basque Employment Service)
- Professional Certificate: Web Page Design and Publishing - Lanbide (Basque Employment Service)
